OUR STORY

What began in 1995 as a small plastics workshop in Karachi has grown into one of Pakistan's most trusted names in custom acrylic fabrication and corporate branding solutions. Originally established under the Qutbi Plastics banner, our three decades of hands-on craftsmanship laid the foundation for precision, quality, and reliability.

Today, reborn as Murtaza Enterprises, we carry that legacy forward with a modern vision blending traditional manufacturing expertise with contemporary design sensibilities to serve corporate clients, event agencies, schools, and startups across Pakistan and beyond.
